

Duties of new members

1)**Absorb N-S Theory and Practice:** We would like all our new members to familiarize themselves with the theory and practice of National-Socialism. To that end we advise new members to get a copy of Mein Kampf, either hard copy or [digital](#), and read it. New members are also advised to read [This Time the World](#), the autobiography of George Lincoln Rockwell.

2)**Promote Our Ideals:** Each member represents the ideals of National-Socialism to the world around him (or her). Our society is permeated with negative images of 'Nazis' through the Jew-owned and Jew-controlled news and entertainment media. It is important that your behavior counteract the negative stereotypes. However, many people will reject you anyway upon discovering your views regarding race, the Jews, and the future we desire for our country. Some you will be able to persuade to our views and some you will not. You should see all White people as being on a time line. Your words and actions will be remembered and will percolate in their minds for perhaps years before the lights come on and they wake up from their Jew-media induced slumber. Others are simply traitors to our people and should be recognized as such. Knowing the difference takes time and experience.

3)**Become active:** Different people have different levels of comfort with open or street level activism. Many have families and cannot afford to lose their jobs. Others have sensitive positions in government and/or the military. We understand that such members cannot be as open with their activism as others. The important thing is that you do something, even if you think it is insignificant. Even if you cannot commit yourself to open activism you can at least support the cause financially, even if that is just a few dollars a month.

It is often the case that friends, family, and co-workers have the same ideas or questions as you but are afraid to voice them. Ask them questions about immigration, non-White crime, and homosexual 'rights' and see what they think. Be prepared to listen even if you strongly disagree. Listening to the views of others will earn you the right to tell them yours. You do not need to give them the entire theory and practice of National-Socialism in one shot. Ask questions and give them little bits of information at a time. Most people are quite intelligent but have been given false information in the past. Give them true information but in small doses.

4)**Recruit:** This goes along with becoming active. Many, perhaps most, of our problems require a political solution. We know there is a spiritual dimension to it all and we do not want to minimize that but we have to realize we are fighting a political war for blood and soil (Blut und Boden) and that war must be fought by building a strong revolutionary organization. That requires recruitment. You can download our recruitment CD [here](#). Download, unzip, and burn to a CD. Use that as the master copy to burn as many additional copies as you will need.

5)Build your cell (local unit): Some members have been recruited into local units and others have joined after reading our website. If you are currently not a member of a cell it is your duty to begin one. You will then be the leader of that cell. Our strategy is that the Party be established on the basis of semi-autonomous cells consisting of 5 to 10 members each. Each cell should subdivide into two upon reaching 10 members. Each cell should then grow, through recruitment, to 10 members and subdivide again. This is analogous to cell division within biological organisms. As need arises, the various cells in each geographical area can cooperate on projects. They are also encouraged to meet socially and build strong bonds of comradeship.

The basis for our belief in the establishment of our Party on the basis of semi-autonomous resistance cells is to be found in Mein Kampf:

[For] winning back the independence of a nation [...] it will suffice if a small remnant, no matter how small, of this nation and State will exist, provided it possesses the necessary independence to become not only the vehicle of the common spirit of the whole people but also to prepare the way for the military fight to reconquer the nation's liberty.

--[Mein Kampf](#) Vol.2 Ch.13

6)Meet regularly: We want to build strong bonds of comradeship among members of the Party. This serves not only to build a network of trust among comrades but also serves to counteract some of the rejection that new members might possibly receive from 'friends' and family. And there will be rejection sometimes. We have members who have been entirely disowned by their families but have found their Party comrades to be like a family.

7)Avoid discouragement: This is sometimes easier said than done. We have a huge task ahead of us. Even if we were to achieve power tomorrow it would take decades, perhaps as long as a century, to undo the damage the Jews and their treasonous White collaborators have done to our country. Rome was not built in a day and Canada cannot be rebuilt in a day, a week, or even a year. So, work hard but be patient with yourselves and with the Party. The important thing is to get the process moving in the right direction. When you get discouraged remember these words from The Turner Diaries:

But one thing which is quite clear is that much more than our freedom is at stake. If the Organization fails in its task now, everything will be lost: our history, our heritage, all the blood and sacrifices and upward striving of countless thousands of years. The Enemy we are fighting fully intends to destroy the racial basis of our existence. No excuse for our failure will have any meaning, for there will be only a swarming horde of indifferent, mulatto zombies to hear it. There will be no White men to remember us, either to blame us for our weakness or to forgive us for our folly. If we fail, God's Great Experiment will come to an end, and this planet will once again, as it did millions of years ago, move through the ether devoid of higher man.

--[Turner Diaries](#), p.31

8)Financial Support: We previously requested that members support the Party financially. We no longer request that. We ask that you put your resources into each local unit and purchase the material and supplies that will be needed for the struggle that is ahead. Each local unit should make the determination for itself about what will be needed.

9)**Be Militant:** Our Party has endeavored to follow a course of 'peaceful' revolutionary struggle as far as that is possible and to the extent that our Party members are not violently attacked. When violence is used against us there is no longer any obligation to remain 'peaceful'. We are in a Life or Death struggle to free our people from the yoke of Jew-Marxist domination leading to the extinction of Our Race. The Jews have used the power of the State to suppress our Party and WE MUST FIGHT BACK!!! Obstacles exist not to be surrendered to but to be broken! SMASH THE JEW-RUN SYSTEM!!!

10)**Be Strategic in your thinking:** The decision on what actions to undertake will be left to the leaders of each cell. The only guidelines should be whether the action will bring a strategic advantage for our cause. Does the long term benefit outweigh the cost? All possible actions should be viewed in that light. Will a contemplated action, if carried out successfully, bring a strategic advantage? If yes, then it should be carried out with courage and determination. **Some of our cells will operate visibly but many of our cells will have to operate 'under the radar'. Remember that huge challenges imply huge opportunities!!**
